SUMMARY

Experienced in React.js, Node.js, MongoDB, and SQL, building scalable web applications with optimized UI performance and secure data management. Proficient in RESTful APIs, Agile development, debugging, and full-stack development, ensuring high-performance software solutions.

EXPERIENCE

Developer intern

Zasmlabs Pvt Ltd

1. ONTAS (JavaScript, React Js, PostgreSQL, Git, Azure DevOps)

- Optimized React.js UIs (30% faster) and delivered features with 95% on-time rate using PostgreSQL
- Utilized Git, GitHub, Jira in Agile environment for version control and collaboration

2. IAWNS (Manual Testing, Jira, Project Documentation)

- Created 50+ Jira test cases with 95% bug resolution through regression testing
- Contributed to SRS/STP documentation while ensuring development standards compliance

December 2024 - Present

November 2022 - August 2023

Web developement intern

InternPe

(Html, CSS(Bootstrap), JavaScript, React Js, Git)

- Built responsive data visualization dashboards with React.js and mobile-first design (100% cross-device compatible)
- Developed reusable components and Excel-integrated solutions, reducing development time by 25%

May 2024-June 2024

PROJECTS

1.Attendance Management System

- Technologies: React.js, Next.js, Node.js, MongoDB, Express.js, Git
- Developed MERN stack application with role-based authentication and real-time tracking (99.9% accuracy)
- Implemented optimized database schema and containerized deployment for scalable data visualization

2.University Management System

- Technologies :Java MySQL, Apache NetBeans
- Designed a secure system managing 1000+ student records with 40% faster processing.
- Built custom administrative interfaces with academic and financial analytics.

EDUCATION

Nowrosjee Wadia College

Master Of Computer Science

CGPA :8.05

2023-2025

Savitribai Phule Pune University

Bachelor of Computer Science

CGPA : 8.4

2019-2022

OPEN SOURCE CONTRIBUTIONS

1.Dark Mode Toggle Web Component

- Built a reusable web component for light/dark mode toggle with local storage support.
- Easy CSS customization using variables.
- NPM: [DarkMode-Toggle](#)

.2.Neumorphic Card Web Component

- Designed a neumorphic-style card with smooth gradients, soft shadows, and interactive hover effects.
- Customizable size, colors, and badges via attributes.
- NPM: [NeomorphicCard](#)

COURSES & CERTIFICATION

1.Amazon Web Services Essentials

TOP IT Academy

2.Professional Diploma in Agile and Project Management

- Udemy

3. .Java Programming

AceInfoedge Solution
